

REACH – Declaration

Number of substances on the Candidate List: 219
(last updated: July 8th 2021)

Fibox is a manufacturer of plastic end products. Under normal and reasonable foreseeable circumstances of application, the products supplied to you shall not release any substance. For that, Fibox is not obligatory for registration nor for the creation of material safety data sheet (MSDS).

Furthermore, we will immediately inform you in correspondence to REACH- Article 33 if any substance of content (as from a content of > 0.1%) in our products will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

Independent of that fact, we are intensively pursuing the realisation of REACH on the part of our suppliers; we do that in our own interest and in order to guarantee a high level of product safety for our customers. We are in close contact with our suppliers of chemistry and prepared material and will implement the pre-registration and / or later registration of the relevant materials in REACH respectively in our process of supplier qualification.

Pawel Wielinski
Director, Product Management
